REQUEST FOR CORRECTED FILING RECEIPT

MS Missing Parts
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Applicants hereby request that a corrected Filing Receipt be promptly issued in the above-identified patent application. The Corrected Filing Receipt received by Applicants dated December 31, 2009, a marked-up copy of which is attached hereto, contains an error in the "Assignment For Published Patent Application" section. The assignee of the present application should read "**BASF** Plant Science GmbH" in lieu of "Basf Plant Science GmbH."

Applicants further request a corrected Notice of Acceptance of Application Under 35 U.S.C 371 and CFR 1.495 be promptly issued in the present patent application. The official Notice of Acceptance of Application Under 35 U.S.C 371 and CFR 1.495 received by Applicant dated March 7, 2008, a marked-up copy of which is attached hereto, has errors in the dates under the following sections:

1. "The United States Application Number assigned to the application is shown above and the relevant dates are":

"Date of Receipt of 35 U.S.C. 371 (c)(1), (c) (2) and (c) (4) Requirements" should read "**07/19/2007**" in lieu of "07/26/2007"; and

"Date of Completion of All 35 U.S.C. 371 Requirements" should read "**07/19/2007**" in lieu of "07/26/2007."

2. "The following items have been received:" section as follows:

"Information Disclosure Statements filed on" should read "06/17/2005" in lieu of "02/25/2005";

"Biochemical Sequence Diskette filed on" should read "11/20/2006" in lieu of "11/12/2007";

"Specification filed on" should read "01/24/2005" in lieu of "07/26/2007";

"Claims filed on" should read "01/24/2005" in lieu of "07/26/2007";

"Abstracts filed on" should read "01/24/2005" in lieu of "07/26/2007"; and

"Drawings filed on" should read "01/24/2005" in lieu of "07/26/2007."

3. "ATTY. DOCKET NO." should read "12810-00067-US" in lieu of "532622010500".

Explanations and copies of the stamped return postcards as evidence for support of all the above date changes have already been submitted to the Patent Office with the first "Request for Corrected Filing Receipt, Corrected Notice of Acceptance of Application, and Change of Correspondence Address" received by the Patent Office on February 26, 2008, copies of which are available in the electronic file wrapper of the PAIR system.

Applicants request that all pertinent U.S. Patent and Trademark Office records relating to the subject application be changed to reflect these corrections. The Patent Office is invited to contact the undersigned if any questions or issues remain.

Applicants believe no fee is due with this request. However, if a fee is due, please charge our Deposit Account No. 03-2775, under Order No. 12810-00067-US from which the undersigned is authorized to draw.

Respectfully submitted,

By Hui-Ju Wu

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as

set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
